The name apostle means _____.
The Apostles were unique. They were personally commissioned and sent out by Jesus himself.

One of the requirements to be an Apostle is you have to _____ see an appearance of the resurrected Lord Jesus Christ. All of the Apostles including Paul saw the resurrected Lord Jesus Christ.

Because Paul was an apostle he carried a unique authority that was on behalf of Jesus Christ Himself. If Paul were not an apostle, then those who read his letters were free to reject what he said. If he wasn't an apostle then people wouldn't be required to obey the commands as they were written by Paul through the inspiration of the Holy Spirit.

- Getting the Gospel right is _____ to not only our _____, but also our _____ in Christ.

This letter helps us get the Gospel right. It reminds us continually that our salvation is rooted not in our good works. It was a total act of God that saved us. Salvation is by grace through faith alone. Nothing else! No Jesus plus (you fill in the blank)

This letter also helps us understand how the Gospel is at work in our growth in Christ. Legalism stunts a Christians growth, because it causes us to start to think that our growth in Christ is a result of us doing something. Jesus plus this, Jesus plus that. What it does is it causes us to focus the attention not on Christ but ourselves.

HOW?

HOW DO WE BECOME FREE?

The best way to turn away from legalism is to turn towards the grace that God offers you through Christ.
